

# Level Gage (LG) — Gage Valve (GV) Orientation

## LG End Connected GV Single Union

- \* Specify assembly orientation at time or order
- \* Change L to R orientation in field by flipping assembly (nameplate inverts)

End Connected

## LG Close Hook-Up "CH" GV Single or Double Union

- \* Offers longest visible glass length
- \* Spherical unions overcome misalignment
- \* Change L to R orientation in field by flipping assembly (nameplate inverts)
- \* Operator will be unable to adjust C-C in field by changing length of connecting nipples
- \* "CH" gages are special order to match vessel C-C
